

JavaScript UI & DOM – Practical Exam

17 June 2014

Task 3

Task

Given the HTML (index.html), CSS (styles.css), JavaScript (scripts.js) and images **build a Handlebar template** that produces the HTML in **result.html**

You should only fill the template in the element with id “**authors-template**”.

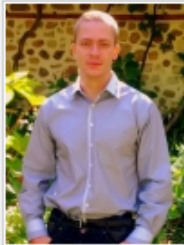

Note that in the result some html elements have “right” class and others don’t.

Final result

Николай Костов
